

## **Language Centre in Almaty University of Power Engineering and Telecommunication**

AUPET is the leading university in the field of energy and telecommunications, which is ranked among the best technical universities in Kazakhstan in 2016. One of the points of the university's mission is to implement the trilingual education. The President, taking into account the realities of the modern world, has set new and more complicated task of studying three languages: "The official language is the language of the people, where we live and which we need to speak in. Therefore, we teach the children at school, and with them we will require knowledge of these languages. We must speak English language, because it is the language of science and innovation. And we need to speak Russian language, which you and I have learned to speak and understand each other, the language of our big neighbor. "

Strengthening of international relations, improvement of quality of knowledge to international standards requires increased attention to the development of language as the main tool of communication. At the moment Multilingual education in the country is one of the main directions in higher education. This university is a critical step in the process of formation and development of a multicultural identity, stage, when consciously formed the core values and principles of life.

**Centre of language teaching and translation has been created for the realization of these objectives in the structural department of AUPET "Institute for Advanced Studies and the two degrees education." .**

Center offers effective courses for different levels of the Kazakh, Russian and foreign languages (English, German, French), professional translation of technical literature, training courses for the UNT, KTA, NIS, to get into college, master's, doctorate.

Classes are taught by experienced instructors of high qualification.
